## Experience:

---

### MERN Developer

Sun System Infotech Pvt.Ltd, Noida

2023 March - Present

## Objective

---

Passionate and results-driven MERN Stack Developer with hands-on experience in building scalable and responsive web applications. Proficient in MongoDB, Express.js, React.js, and Node.js, with strong knowledge of RESTful APIs, database management, and cloud deployment. Skilled in working in Agile/Scrum.

## Profile Summary

---

- Over 2.5 years of experience in Mern Development with hands-on experience in designing, developing, and deploying web and backend applications.
- Developed, debugged, and designed software programs for applications.
- Created secure APIs with Node and JWT within a Microservices architecture.
- Developed the front-end module using React, including designing the entire architecture.
- Optimized application performance by implementing efficient code and reducing latency.
- Engaged in full life cycle development, including requirements gathering, architectural design, coding, testing, and deployment.
- Conducted unit testing using JUnit, ensuring code quality and adherence to best practices.
- Collaborated within Agile/Scrum teams to design, implement, and deploy Node.js-based applications.
- Applied advanced Node.js concepts in real-world scenarios, gaining practical experience in database integration
- Proficient in database design and management using MySQL and SQL Server.
- Hands-on experience with frontend technologies, including HTML5, CSS3, Node.js Script, and Bootstrap for creating responsive user interfaces.
- Knowledge of deploying and managing cloud-based applications and working with DevOps tools like Git and Jenkins.
- Strong communication, collaboration, and problem-solving skills with the ability to adapt quickly to new technical challenges.

## Technical Skills

**Frontend:** React.js, Redux, Node.js, Java Script (ES6+), HTML5, CSS3, Tailwind CSS

**Backend:** Node.js, Express.js, REST APIs, Authentication (JWT, OAuth)

**Database:** MongoDB, Mongoose, MySQL (optional)

**Tools & Platforms:** Git, Postman, Docker,

**Problem Solving Skills:** DSA (Using C++)

## CODING PLATFORMS:-

---

- Solved 1000+ Problems on **Leetcode**
- Solved 1000+ Problems on **GeeksforGeeks**
- Solved 1000+ Problems on **HackerRank**
- Solved 1000+ Problems on **CodeChef**

## Projects Description:

---

### 1. Tax Admin

**Scope:** This is a project containing all the requirements of customers for maintaining accounts and tax management system including their payroll systems, CRM, and staff on boarding. Corporate Tax Returns and Self Assessments and book keeping of their clients can be done with the help of this single application. And all these task can be managed without consulting or paying to CA.

**Role:** Backend Development and Database Management

**Platform:** Windows/Linux

**Technology:** Node.js, Express.js, REST APIs, Authentication (JWT, OAuth)

**Tools:** Eclipse, Postman

### PayRise

**Scope:** This project is a comprehensive payroll management system that simplifies the administration of employee salaries in any organization. The system uses modern technology to integrate HR and accounting, allowing for quick, easy, and accurate payroll processing. Our team's responsibility is to meticulously test the system to ensure it meets the client's specific needs and requirements..

**Role:** Full-Stack Developer

**Platform:** Windows/Linux

**Technology:** Node.js, HTML5, CSS3, Bootstrap, Node.js, Java Script, MySQL

**Tools:** Eclipse, Git

## Educational Qualification

---

### B-Tech

I.E.M Kolkata.

### High School

Bihar School Examination Board Patna

### Intermediate

Board of Secondary Education Rajasthan

## Declaration

---

I, Prakash Kumar, hereby declare that above mentioned all information's are true and best of my knowledge.
